3.5 Handling of your personal information by vidaXL

The vidaXL-concern has several offices worldwide. These offices work closely together. Employees in our offices only have access to personal information as far as this is required for them to do their job.

vidaXL takes measures to **protect** your personal information. To achieve this, we use means that fit our activities, the nature and size of our company, and the sort of information we use. We do this to prevent unauthorized access to, adjustment, disclosure or loss of personal information.

vidaXL does not **store** your information longer than necessary for the purposes your information is used for, unless the information has to be stored longer due to legal requirements (such as a retention obligation). How long certain information is stored depends on its nature and the purposes for which it is used. The storage period can

therefore differ per purpose. We do not store your personal information physically but store it on clouds and various softwares which are provided by third parties.

Because of the global presence of vidaXL, it can happen that your personal information is used or disclosed outside of Australia in countries such as the Netherlands, Romania, the United-Kingdom, the United-States or China. vidaXL makes sure that your personal information is well protected within the entire concern and guarantees that appropriate obligations are imposed on third parties located outside of Australia when handling your personal information.

vidaXL can in no way be held accountable or responsible for the way in which third parties and companies deal with your (personal) information. vidaXL always advises that you read the Privacy Policy and Cookie Statements on the relevant Web Shops and from the relevant companies.

4. USE OF COOKIES

4.1 What are cookies?

As with many Web Shops, vidaXL uses cookies and files similar to cookies and technologies such as "web beacons" (hereafter: "Cookies").

A Cookie is a small text file that is sent with the Web Shop page via your browser, it is then saved on a hard drive of your computer, phone or tablet.

Cookies are for example used to save passwords and personal settings, so that you don't have to fill those in the next time you visit the Web Shop.

We will further explain how the Web Shop uses Cookies, where the Cookies come from and why they are used. For the optimization of our own ads and those from third parties the following information, amongst others, is collected:

- Purchased products
- Viewed products
- Order value
- How did the customer get on the Web Shop

In part 4.2, we will describe how Cookies can be rejected and removed.

4.1.1 Functional Cookies

vidaXL uses Cookies, such as Google Analytics to remember your chosen settings and entered information during your visit to our Web Shop. These Cookies make browsing our Web Shop easier because certain information does not have to be re-entered every time.

In addition, vidaXL can use Cookies that are necessary to make the Web Shop function well, even when you visit the Web Shop on your mobile phone or tablet.

4.1.2 A/B Testing Cookies

vidaXL continuously tests its Web Shop to be able to provide the best user experience. Because of that, vidaXL uses so-called A/B testing Cookies by third parties. With A/B tests, there are two different variants of the Web Shop, or parts of the Web Shop shown to visitors to determine which one works best. As such, this Cookie determines which version of the Web Shop you see.

4.1.3 Webshop Analysis Cookies

On the Web Shop, Cookies are used that keep track of which pages you have visited. This information is collected, amongst others, by web analysis services Google Analytics, Pingdom, Hotjar, Piwik, Google Tag Manager, TVSquared, Content Square, Speedcurve, Zendesk, Zoovu and Clarity.

These web analysis services use Cookies to analyse how visitors use the Web Shop. The Cookies are used to save visitor information, such as the time the visit to the Web Shop took place, or whether the visitor has visited the Web Shop before and via which Web Shop the visitor ended up on the webpage.

To optimize the user- and customer experience of our Web Shop, vidaXL uses Hotjar Web Analytics Service. Hotjar can register mouse clicks, mouse movements and scrolling activities. Hotjar also collects information about visited webpages, taken actions, the country you are in, the device you are using and the browser you are working with. Hotjar does not collect any personally identifiable information (PII) that you do not enter voluntarily on the Web Shop. Hotjar also does not follow surfing behavior on Web Shops that do not use their services. Hotjar's privacy statement contains a detailed explanation about how Hotjar is used: <https://www.hotjar.com/privacy>. You can always choose to not have your information gathered by Hotjar when you visit our Web Shop, go to the 'Opt-out' page on the Hotjar Web Shop and click on 'Disable Hotjar' to do so.

The generated information about your Web Shop use is, in most cases, sent to the servers of the relevant web analysis services. The web analysis services use this information to evaluate how you use the Web Shop, to create reports about the Web

Shop activities and to offer you other services pertaining to the use of the Web Shop and the internet. vidaXL uses the aggregated data from the reports for further optimising of the Web Shop.

Pingdom is a website performance monitoring tool. It helps us identify bugs and other performance issues. Pingdom does not collect any personally identifiable information. It collects anonymous information on website load times and load orders.

Google Analytics is a website behaviour analysis tool. It does not collect personally identifiable information. IP addresses are masked before they get stored by Google. Google Analytics collects and processes browsing behaviour, allowing us to identify bottlenecks on our website, and troubleshoot any potential issues our customers may encounter. In general, it helps us get a picture of how our customers interact with our website, and we can use that information accordingly to improve our platform.

Google Tag Manager is a tool that manages our cookie placement. It allows us to make quick changes to the way information is sent and received. (for example, we build our 3rd party connections through this tool, and can and will block irrelevant cookies from there).

TVSquared is a tool we use to measure our offline branding efforts. It collects a limited set of browsing behaviour data, and combines that with our offline branding data, to measure the performance and effectiveness of our branding efforts.

Clarity is a similar tool to Hotjar. It has a similar use to Hotjar (mentioned above) in that it specializes in user behaviour on a deeper level. It measures clicks on the different elements on our pages, and collects recordings of user sessions (randomly selected and anonymous). This allows us to get an even better grip on potential issues on our website. Using this tool allows us to find flaws and potential areas that need improving, and allows us to test these improvements afterward.

vidaXL refers to the privacy policy of the relevant web analysis services in which is described how they deal with your (personal) data when their products and services, amongst which web analysis, are being used.

4.1.4 Affiliate Cookies

On the Website, Affiliate Cookies are used to measure the effectiveness of ads placed on behalf of vidaXL on third party websites. This way the affiliate partner can be rewarded by vidaXL for their online advertising of vidaXL. Through these Cookies it can be checked via which affiliate partner you reached our Web Shop, whether ads are effective and if they did actually lead to a sale in our Web Shop. They do all of this without the exchange of personal data.

In Australia, we have only one affiliate partner, called Impact.

4.1.5 Retargeting Cookies

The Web Shop uses retargeting Cookies to show relevant ads to returning visitors of the Web Shop. With these Cookies, a profile of your surfing behavior can be built so that the ads correspond with your interests. The ads are shown on ad partners' Web Shops and on social media. Cookies in this category are Google Ads, Bing Ads, Criteo and IntelliAd.

4.1.5.1 Criteo

Amongst other things, Criteo's retargeting Cookies are used. For more information about the information Criteo collects, we refer you to the [Criteo Privacy Policy](#).

4.1.5.2 Google Ads & Analytics Remarketing

vidaXL uses Google Ads & Analytics remarketing services to show ads on third party Web Shops (including Google) to previous visitors of vidaXL. This can mean that we, for example, show ads to a visitor that has not completed their order, or has just completed their order. The ads can be text- or display ads within the Google Display Network.

All collected information is used in accordance with the Privacy Policy and Cookie Statement from vidaXL and Google's privacy policy. You can set your ad preferences via the [Google Ad Preference page](#).

Learn more about how Google processes personal information on Google's Business Data Responsibility page [Business Data Responsibility](#).

4.1.5.3 Retargeting Cookies third party Webshops

On third party Web shops (such as online marketplaces), retargeting can also happen. vidaXL Cookies are then used to show relevant ads to previous visitors of these other Web Shops.

4.1.5.4 Facebook, Instagram and Pinterest Advertising and analytics

vidaXL uses Pinterest Ads and Facebook Ads remarketing services to show ads on third party platforms (including Pinterest, Facebook and Instagram) to previous visitors of vidaXL. This can mean that we, for example, show ads to a visitor that has not completed their order, or has just completed their order.

We share information with Pinterest, Facebook and Instagram from cookies set in the websites' domains, whether or not you have a Facebook account or are logged in. Their purpose is to personalize content (including ads), measure ads, produce analytics and provide a safer experience, as set out in [this Facebook Cookies Policy](#). All collected data (Email address, gender, location, first name and surname, phone number, date of birth, IP) is used in accordance with the Privacy Policy and Cookie Statement from vidaXL and Facebook's privacy policy. You can adjust your ad preferences via the [Facebook Ad preferences](#) or [Instagram Ad preferences](#).

4.1.5.5 RTB House

Amongst other things, RTB House's retargeting Cookies are used. For more information about the data RTB House collects, we refer you to the [RTB House's Privacy Center](#).

4.1.6 Social Media Cookies

On the Web Shop, you can use (for example) social media buttons from Facebook, YouTube, Twitter, Pinterest and Google+.

As soon as you visit a page on the Web Shop that has social media buttons, your browser connects to the relevant social media provider. Through this, the provider obtains information about the pages on the Web Shop you visited with your IP-address.

If you are logged in to Facebook, YouTube, Twitter, Pinterest or Google+ during your visit to the Web Shop, your visit can be linked to your account. If you use the buttons, by clicking the Facebook 'Like'-symbol for example, then the relevant information is sent to and saved by the relevant provider via your browser.

The purpose and scope of the information collected through social media buttons, as well as further processing, the further use and the duration of the storage, are

exclusively determined by the providers of the buttons. You can read more about this in the privacy policies of the relevant providers.

4.1.7 Price Comparison Cookies

The Web Shop uses different avenues of advertisement. Aside from affiliates, another popular channel our customers like to use is Price Comparison Websites. These websites aggregate product lists from different websites, and display them in a way the customer can easily compare stores, prices and service levels.

In order to determine the performance of these Price Comparison Websites, we send confirmation of the purchase (if made through their channel) and limited purchase information (amount of products, total transaction amount) to these partners. This allows us to monitor their performance, and adjust accordingly. They do not collect personally identifiable information.

We currently do not use any price comparison cookies in Australia on our Web Shop.

4.1.8 Email Cookies

On the vidaXL.com.au, Email Cookies are used to measure the effectiveness of commercial e-mails sent by vidaXL. This way we can measure effectiveness and performance of our e-mail campaigns and newsletters. All of this happens without collecting any personal information.

We currently work with an email cookie partner named Clang. We also work with Salesforce Marketing Cloud which will allow you greater control over how you receive notifications.

4.1.9 Data for recommending and optimizing the customer experience

To provide you with a personalized and optimized experience on vidaXL.com.au, we use general customer behavior and statistics.

When you view a product on vidaXL.com.au, you will also see similar or related products listed under the headings "you may also like" or "recommended combinations". These recommendations are related to products you are currently or have recently viewed. Additionally, you may see recommendations based on statistical data from customers who have previously purchased the item you are viewing. These recommendations are not personalized and are advertised to all customers who view the product.

4.2 Accepting and Declining Cookies

When you enter vidaXL.com.au, a cookie banner appears at the bottom of our website. You can either accept all the cookies (Essential cookies, analytical cookies and marketing cookies) or chose to personalize settings.

If you chose to personalize the settings, you will be able to choose to opt-in to analytical and marketing cookies. If you click on "save settings" without opting in to analytical or marketing cookies, only essential cookies will be used.

Essential cookies cannot be declined as they are strictly necessary to provide the website and its functionality (ex: to allow us to hold items in your cart, to keep your language preferences).

You can also accept or decline Cookies by adjusting your browser settings. Every browser is different, so vidaXL refers you to the information page of your browser or the user manual of your phone for the setting of your Cookie preferences.

If Cookies are completely switched off, it is possible that you cannot use all the functions of the Web Shop. If you use different computers at different locations, you have to make sure that every browser is set to your Cookie preferences.

You can always remove Cookies from the hard drive in your computer, phone or tablet. Consult the information page of your browser or the user manual of your phone or tablet to learn how to do this. Please note: when you disable your cookies completely, it is possible that not all functionalities on the web shop can be used.

5. CHANGES TO THE PRIVACY POLICY

The contents of this Privacy Policy and Cookie Statement can be amended. The most current version can always be found on the vidaXL Web Shop. vidaXL advises that you regularly check this Privacy Policy and Cookie Statement, at least before you provide vidaXL with personal information.
